Ihor Chernous

Foreman · Construction & Installation Specialist

15+ years | Shipbuilding | Industrial construction | Datacenter construction

PROFILE

Construction and installation specialist with over 15 years in shipbuilding, interior outfitting and installation work, including shipyards across Europe. Currently a foreman at Meyer Turku, leading a team of up to 12 on cruise ship outfitting: ventilation ductwork, piping, cable trays and fire protection. I keep work moving to the drawings, on time and to standard. Looking for foreman, team leader or skilled installer roles in shipbuilding, industrial or datacenter construction.

EXPERIENCE

Foreman · Outfitting & Installation
2022 – Present

Meyer Turku shipyard · Turku, Finland

- Lead a team of up to 12 workers on cruise ship interior outfitting and technical installations.
- Assign daily tasks from technical drawings; track work quality and deadlines.
- Organise delivery, unloading and distribution of materials so crews don't wait on site.
- Help workers read drawings and choose work methods; keep the team efficient and the atmosphere positive.
- Hands-on installation of ventilation systems and ductwork, piping, cable trays and fire protection systems.

Construction & Installation Worker
2017 – 2022

International shipbuilding projects · Shipyards in several European countries

- Construction and installation work on shipbuilding projects, including dry-dock projects.
- Worked across different yards, teams and standards, adapting quickly to each site's methods.

Carpenter & Interior Outfitter
2008 – 2017

Yacht building

- Carpentry, plus manufacturing and installing furniture for yacht interiors.
- Interior finishing to a high standard of detail, and teak deck installation.
